Commencing at 7.30 P. M.

PREFACE

At the request of President Farran Zerbe and Treas. and Sec'y Howland Wood, I have catalogued the following coins, to be sold by public auction September 30th, at 7.30 P. M.

It has been my aim to include coins that will interest the greater number of Collectors, and my regret is that I have to confine it to one night. The material is of fine quality, and I trust those attending will find items of interest.

To those who have never attended a coin sale I desire to state that the coins will be on exhibition from 9 A. M. to 5 P. M. the day of sale in the Art Gallery of the auctioneers. After that hour, and during the progress of the sale, nothing is exhibited unless by request, the auctioneer at time of sale simply calling the lot number when I give him a starting bid and he proceeds to receive the bids from those making them—no time is thus wasted, no importunity to bid, and if no advance is made it is quickly knocked down and next number called; this plan enables the sale to be conducted in a rapid manner, about 200 lots sold every hour, and it is therefore necessary to those contemplating bidding to mark the sum they are willing to pay for a certain number in their catalogue when examining the coins, etc., during the exhibition.

Every coin, etc., is sold so much each, no matter how many there may be in a lot number. Please examine your bids carefully prior to sending them in, so as to avoid errors. I will faithfully and carefully execute bids for the regular and usual 10% commission of the *amount purchased*, no charge being made unless goods are bought.

Terms of sale are cash before delivery, except to those to whom I desire to extend the courtesy of credit. Persons bidding through me and who have established their responsibility will have their purchases forwarded as formerly; payment to be made on receipt of goods. A deposit required from persons unknown to the cataloguer or auctioneers.

As time before sale is brief kindly examine this catalogue and send in your bids. I guarantee all the coins, etc., genuine and this guarantee is without time limit.

Catalogues will be sent after the sale, with the price each piece sold for marked in red ink, on receipt of 50 cents.

Remember this sale takes place in the evening, 7.30 o'clock.

FRANCO-AMERICANA SERIES.

Litham 168 1670 15 Sols. Bust of Louis XIV r. L V D . XIII . D. G. FR. ET. NAV. REX. (Louis XIV, by the grace of God, King of France and Navarre). Above sun is splendor, the badge of Louis XIV. R. Shield, arms of France crowned; GLORIAM REGNI . TVI . DICENT . 1670. (They shall speak of the glory of thy Kingdom.) Mint mark A=Paris beneath shield. 15 Sols. Silver. Very good, not damaged except by some wear from circulation and might really be termed fine. Breton No. 501. Leroux No. 250. Hoffmann No. 100 plate XCXI. This great coin is one of, if not the rarest, of Canadian coins, far surpassing in historical interest any other, for it is a legitimate coin issued by the Government at Paris under an edict of Louis XIV, dated February 19th, 1670, for the purpose of furthering the commercial transactions of *La Compagnie des Indes*. The *Sol* current in Canada—having a value of about one penny, 20 Sols

making 1 *livre*. By a later edict dated November 18th, 1672, this coin was made current for 20 Sols—vide Zay *Historie monétaire des Colonies Françaises* Paris 1892. But four examples of this coin are known to me. 1st Paris, National Collection, where it is exhibited in E. Zay's coll., which he presented to the Government.

No. 2. Berlin, now exhibited in the National Collection, but when I discovered it in 1889 they had it thrown loosely in a drawer full of rejected or valueless coins, and its value and interest was unknown to them until I informed the Director.

No. 3. A very deeply-corroded example, sold in a sale by Frossard in New York about 20 years since.

No. 4. The present example formerly in the Ulex collection.

A start or upset reserve of \$500 has been placed on this coin, and, strange to say, that figure was set prior to learning that Breton in his supplement and value circular of Nov., 1907, places its value at \$350 to \$500. If \$500 bid is made it will be sold; if not, withdrawn.

169 1670 5 Sols. Same type and inscription as last lot.

composed of addorsed L's crowned and the angles occupied by a fleur-de-lis, in center a mint mark of Paris. CHRS REGN. VINC IMP (Christ Reigns, Conquers, Rules). Gold. Fine, and the second example I have ever seen of this coin, the first being lot No. 37 in the celebrated collection of M. A. Stickney, which I sold June, 1907, and, though finer, sold for \$75. While this coin is not given by any writer on Canadians (owing, no doubt, to its being unknown to him), yet I think there are strong indications of its being the gold coin for this series—the workmanship is quite the same—the date 1670 identical.
